IOS Devices/Macbook

This certification has a few options available to you. You can use your macbook to create a keynote slideshow and transfer that to your ipad or ipod, you can create a book/content trailer using imovie, you can make a podcast using garage band, you can make a slideshow using photobooth or iphoto, you can make an epub document and transfer that as a book to your ios device, etc.. The main idea is to use your macbook or applications with your mac to transfer the information (requires syncing to your ios device) to your IOS device. As you can see, there are many opportunities to fulfill

this certification. You may use any of the training documents available at:
