

Webb Elementary

TECHNO^{©LPPH}

Initiative

We are continuing a voluntary program to help you learn some cool tech tools **AND** earn free stuff! Here is how it will work....on the Webbtechstars wiki, there is a page called "**Webb TECHNO 2011-2012.**" On that page, there are "**Technology Instruction Pages.**" These pages are detailed instruction sheets that explain how to use a cool **Tech Tool**. If you follow the instructions, they will guide you in completing a project using that particular tool. Once the project is complete, you will submit it and a documentation page to your grade level tech representative in order to "earn a square" on the "**TECHNO**" board. You will also find the "**TECHNO**" Bingo Board on the wiki. Once the LMS has verified completion, you will be given a sticker to place on your bingo board. Prizes will be awarded for filling in either a row or column. Once you have completed one row or column, keep going! There is a very cool prize to compete for at the very end if you complete a total "Black Out" on your board.

One column or row:	Jeans Coupon
Two columns or rows:	No Tracks on the Backpack Pass
Three columns or rows:	Sonic Drink
Four columns or rows:	Duty Free Week (schedule with LMS)
Total Black Out:	Tshirt and jeans pass for every Wed. (name goes in a drawing for a ???)
