We will not spam or share your email address.

Make a Wiki? ☒ Yes ☐ No  
Create a wiki now or after you join.

Wiki Name   
Choose a name between 3 and 32 characters long.

Wiki Permissions ☒ Public (free)  
Anyone can view and edit your pages.

☒ Protected (free)  
Anyone can view pages; only wiki members can edit them.

☐ Private  
Only wiki members can view and edit pages.

What can you do with a wiki?

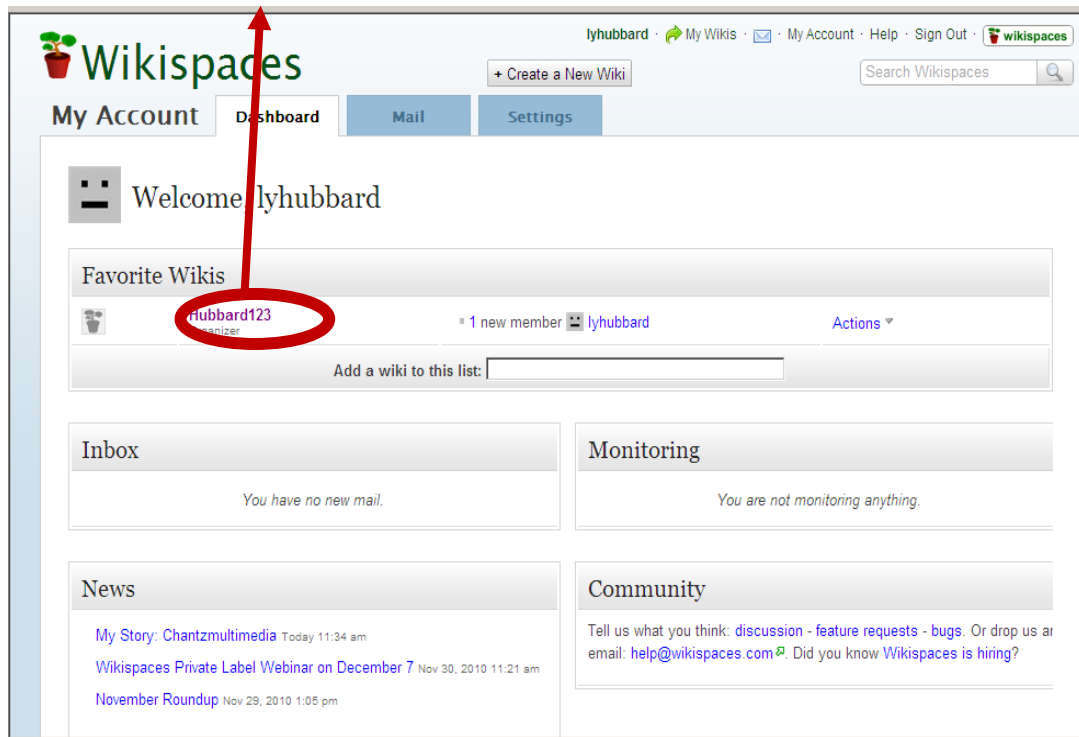

- Collaborate With Ease  
Post text, images, files, and more on your wiki.
- Create Student Accounts  
Our easy three step process doesn't require email addresses!
- Set Privacy  
Ensure that only your members can access your wiki's content.
- Embed Media  
Include video, audio, RSS, and anything else you can imagine!
- Customize Your Look  
Select from a variety of wiki themes, pick your own colors and logo.

2. My Account page will have the dashboard, mail, and settings tabs. The Dashboard shows favorite wikis, inbox, news, and other information.
3. Click on your name under the Favorite Wikis section.

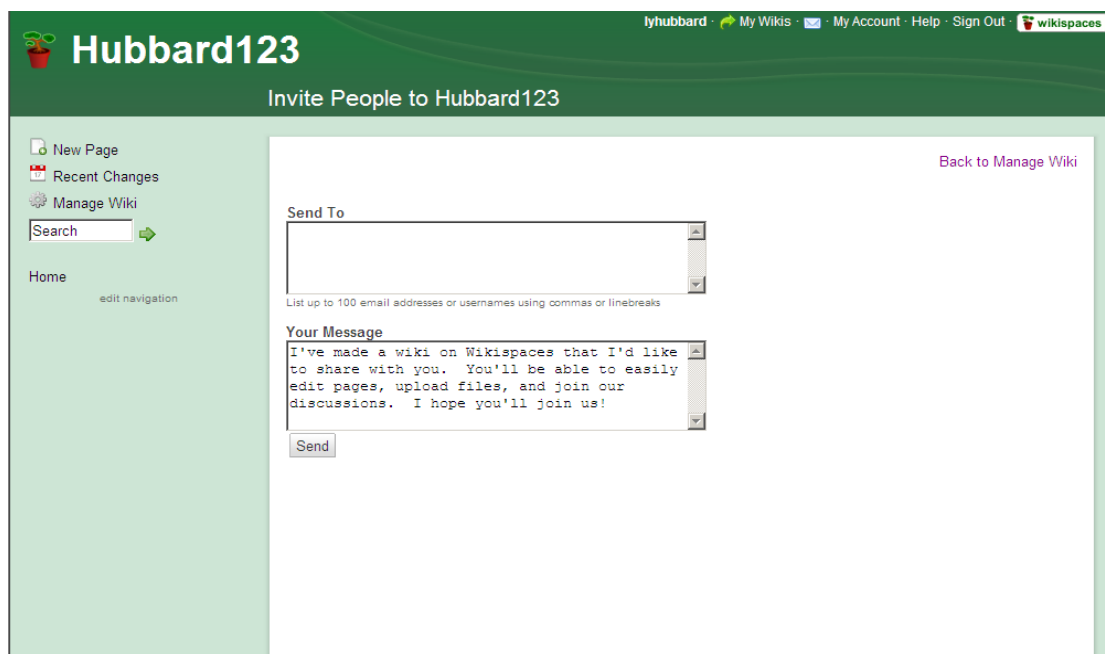

4. The next screen will show the wiki that has been created. This page will help Get Started with the explanation of the edit button for adding content, inviting new member to the wiki, changing colors, and managing the wiki.

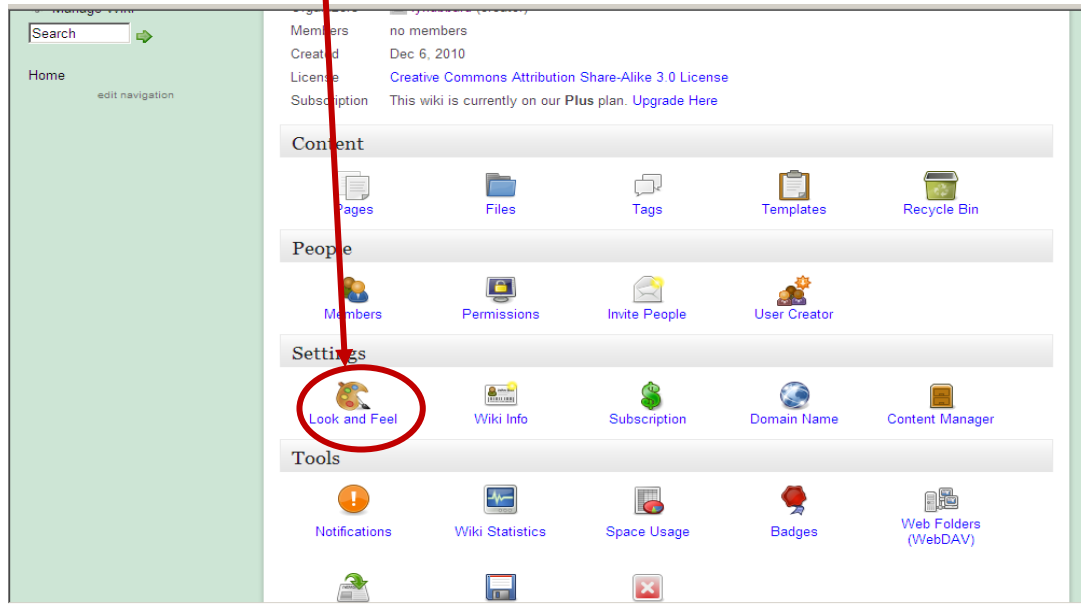

5. After clicking on the Manage Wiki button, this screen will give different options to set up the wiki.
6. Click on the Invite People icon under the PEOPLE section to invite others to your wiki.

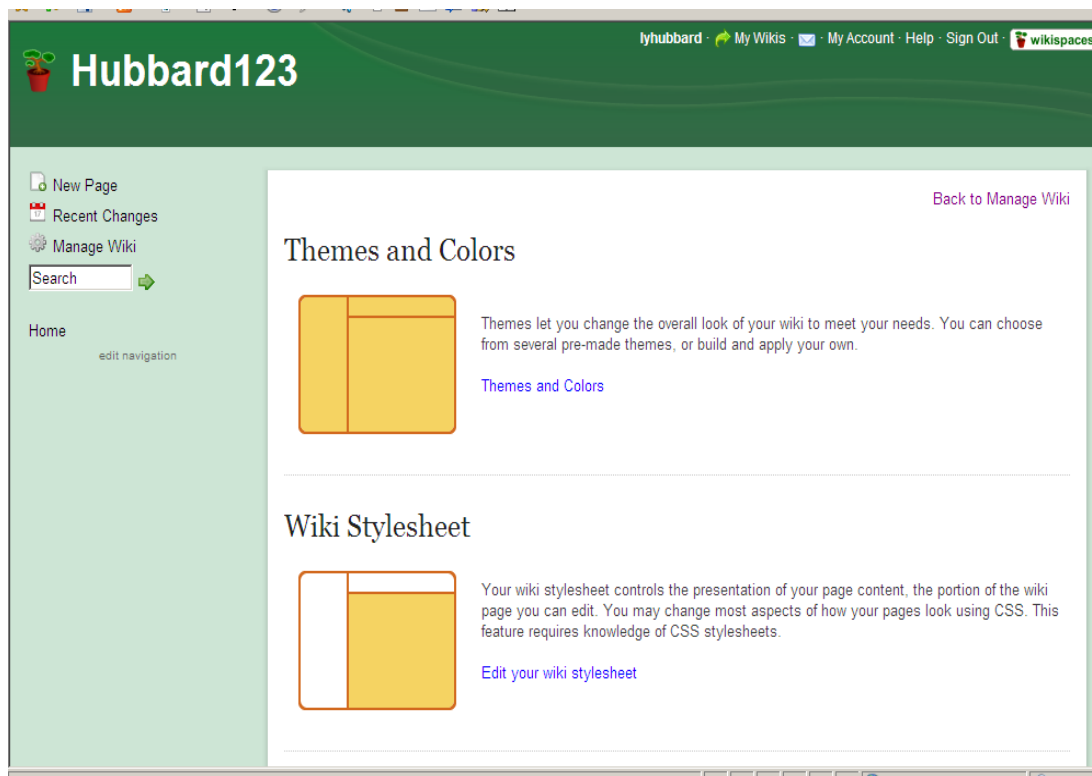

7. Invite people to the wiki by typing in email addresses and a message will be sent to those guests.

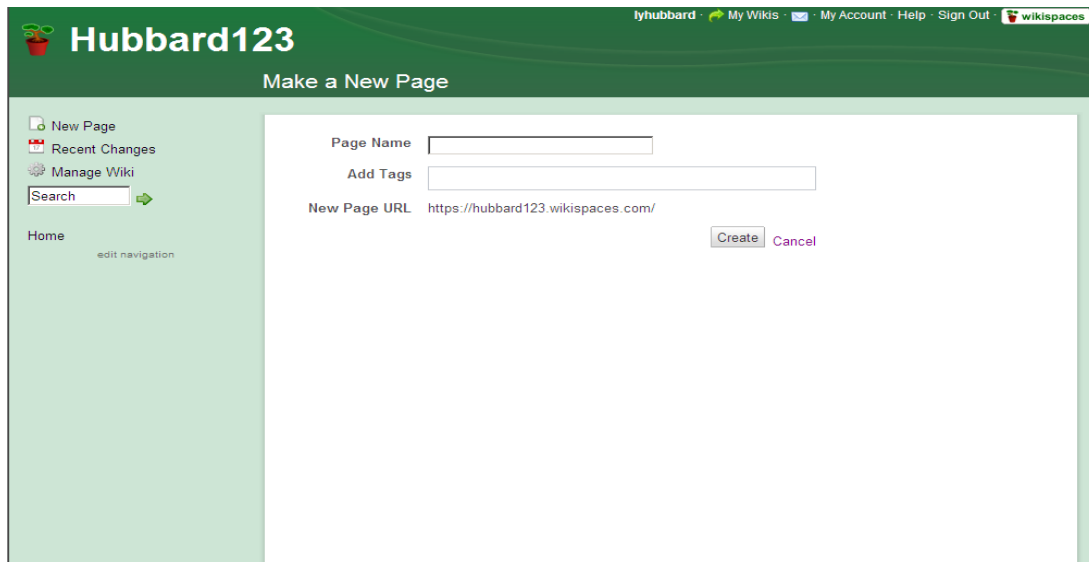

8. Click on the Look and Feel icon under SETTING section to design what the wiki looks like.

9. This screen can be used to create the overall look of the wiki with the changing of colors, style, adding logos, etc.

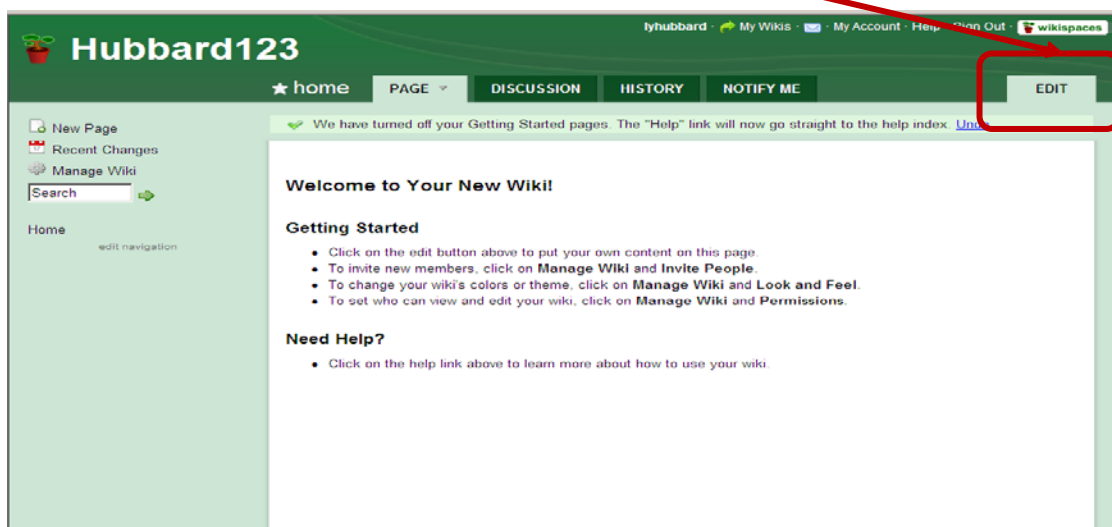

10. To add pages to the wiki, click on New Page on the left column. This screen will appear and name the page that you want added to your wiki. It will show on the left side column and can be viewed by clicking on the title. Click on the Create button when finished. Make as many pages as needed for the wiki.

The screenshot shows the 'Make a New Page' interface for the Hubbard123 wiki. The header includes the wiki name 'Hubbard123' and user links like 'lyhubbard', 'My Wikis', 'My Account', 'Help', 'Sign Out', and 'wikispaces'. The left sidebar contains links for 'New Page', 'Recent Changes', 'Manage Wiki', a search bar, and 'Home'. The main area has input fields for 'Page Name', 'Add Tags', and 'New Page URL' (pre-filled with 'https://hubbard123.wikispaces.com/'). At the bottom right of the main area are 'Create' and 'Cancel' buttons.

11. Use the edit button on the right side of the wiki to design the page. The edit button shows the toolbar, which has many capabilities: changing the text, add a link, file, widget, or table.

12. Using the edit button, click on widget and then click on Other. Paste the link from your glogster into the box and save. This will bring the glogster page to the wiki. Just one idea for the wiki.
13. Now it's your turn to get started!

## Documentation Page

### Wikispacesforeducators.com

I have signed up with wikispacesforeducators.com and created a wiki for my students and parents. I have invited my tech rep and my LMS to join my wiki.

I have put my wiki address on my teacher website and advertised my wiki to my class. I have joined the WebbCubs wiki and the Webb Tech stars wiki and have added my page to the Tech stars page.

(<http://webbtechstars.wikispaces.com/Webbtechstars> )

I have/have not embedded a glogster, which highlights my students and grade level curriculum into my grade level wiki.
