Simple Meet

Instant chat with anyone! No downloading or checking if you have the right software. So easy a monkey could do it.

Step 1: Go to <http://simplemeet.me/>

Step 2: Find the code at the top of the page.

Step 3: Give the code to whoever you want to chat with. They will go to <http://simplemeet.me/> and enter the code in the box that says join a chat.

Step 4: Once they have joined the chat starts automatically. That's it, start chatting.

Step 5: Use simple meet with at least a small group of students to discuss a topic.

Name_____Date_____

Grade Level_____

Documentation Page

I did a simple meet chat with my class.

We discussed _____.

Take a screen shot (using jing) of the simple meet chat and turn it in to you tech person.
